Hope Health Systems, Inc.

Expanded School Mental Health - ESMH

Helping Students Succeed - In School and Beyond

👩‍🏫 How We Support Students and Families

- **Therapists:** Provide counseling, crisis support, and therapy (individual, family, group)
- **Prevention Specialists**: Run fun, skill-building groups & classroom programs
- **Care Coordinators**: Connect families to housing, food, health care, and community resources

🌟 Why It Matters

✔ Faster access to mental health services — right in school
✔ Evidence-based programs like CBT+, MATCH-ADTC, and Botvin LifeSkills
✔ Early screening & prevention (SBIRT) to catch problems before they escalate
✔ Stronger family connections & support services
✔ Reduced hospitalizations, improved attendance, and better academic success

🚀 Early Intensive Intervention Program (EIIP)

When more support is needed, students can access short-term, intensive care (2–8 weeks) at HHS centers with:

- Daily therapy & skill-building
- Psychiatry & medication management
- Crisis stabilization
- Family engagement & transition support back to school
